PROFILE

I am an Innovative Software Engineer offering 5+ years of expertise in Web Application Development. Quickly learns and masters new technologies while working in both team and self-directed settings. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

WORK EXPERIENCE

FRONTEND DEVELOPER
VoPay

Aug 2016 - Present

- Worked in Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Managed full-cycle design tasks, handling phases from conception to completion while maintaining guidelines throughout.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding.
- Created powerful dashboards to serve as interface for client.
- Reviewed code to validate structures, assess security and verify browser, device and operating system compatibility.
- Developed landing pages, dashboards and online applications using React, Ember.js, and PHP.
- Provided front-end website development using WordPress, Hubspot and other editing software.

SOFTWARE ENGINEER
Content Connections

Mar 2018 - Sep 2021

- Analyzed user requirement reports to design web applications to meet customer needs, as well as legal and budgetary restrictions.
- Implemented UI and usability changes based on customer feedback, addressing end user pain points with post-launch patches.
- Provided ongoing efficiency and security maintenance and patching on website interface to maintain viability after launch.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Identified issues within databases, performed troubleshooting and implemented effective solutions.
- Employed coding practices based on commonly accepted standards to establish site layout and user interface.
- Converted design assets into component-based HTML, CSS and JavaScript.
- Produced websites compatible with multiple browsers.
- Created a unique Learning Management Systems with the ability to create content, analyse students and manage grades.
- Developed a content platform using .NET MVC 5, and Entity Framework.

EDUCATION

Computer Science, Bachelor of Science

Sep 2012 - May 2016

Simon Fraser University
